DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Cutitta (Reg. No. 52,790) on 1/10/2008.

IN THE CLAIMS:

In claim 14, line 26 after "plate", ",", has been replaced with -- , --.

In claim 35, line 15 after "contacts", "the" has been replaced with -- a --.

In claim 36, line 15 after "contacts", "the" has been replaced with -- a --.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Independent claims 1, 9, 15, 35 and 36 of applicant's 11/7/2007 Amendment are patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including a stripper comprising an opening groove formed on an upper portion of the stripper such that a contact surface of a lever contacts a side of a paper through the opening groove.

Independent claim 14 of applicant's 11/7/2007 Amendment is patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including a cam gear comprising a cam surface, in which at least one cam protrusion formed on the cam surface contacts a shaking plate, and the at least one cam protrusion comprises three sub-cam protrusions formed at the same intervals along a circumference of the cam surface that contacts the shaking plate.

Independent claim 21 of applicant's 11/7/2007 Amendment is patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including a stripper comprising another contact surface contacting a paper and an opening formed through the another contact surface, and a contact surface of a lever is disposed in the opening of the another contact surface of the stripper.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
